“Mother Mary’s Global Alert” Videos – Worth Seeing in Face of Recent Events

The earthquake in Haiti and the many other earthquakes that have shaken the world in these first days of this year have prompted me to write this mid-month note. Mother Mary has been announcing several natural disasters for some time now and it seems we may have entered the critical period prophesied by Her. Difficult times are falling upon the US and the world at large, with more natural disasters, weather problems, food shortages, economic collapse, war, disease, and the list goes on. I do not intend to go into the details of these prophesies in this newsletter, but I invite you to go to www.youtube.com and search for ***Mother Mary’s Global Alert*** videos. I urge you to listen to both, Part I and Part II, to be more informed. You can also click on these links:

Now, a fulfilled prophesy is a failed prophesy, because prophesy is given to us so we can avert calamities through prayer, fasting and our good deeds. The Blessed Mother has been asking us to prepare and not be caught off-guard. We need to prepare spiritually, but also in the physical plane. You will find important tips and information on how to prepare.

For those that know me, I am not a doomsday person, but because I have been studying the messages of Mary for a long time now, and also researching the topic of end of times prophesies, I believe we indeed have entered the critical period. It is important to understand that “end of times” does not mean end of life, but rather a transition to a new era, a new time, where humans will be able to experience life in a way much closer to that which God intended for us. The transition period, however, will be difficult.

From Our Lady’s message to Mirjana (visionary of Medjugorje) on January 2nd, 2010 we capture the following words “...*Do not be afraid, my children, I am here with you, I am next to you. I am showing the way to forgive yourselves, to forgive others, and, with sincere repentance of heart, to kneel before the Father...*”

May God bless you,
Alex
